Subject: Spent Desulfurization Waste  
Reference: Bloom Energy; File Code 10

Dear Mr. Ghezavat:

The Delaware Department of Natural Resources and Environmental Control (DNREC), Solid and Hazardous Waste Management Section (SHWMS) is in receipt of your September 9, 2014 response in which you state that spent desulfurization waste is exempt from regulation while in Delaware, as the spent desulfurization containers are considered manufacturing process units.

Please provide a detailed process description of the activity occurring in the desulfurization container, including a description of the feedstock entering the container, the media inside the container, and the material exiting the container. Please also provide a description of how the container meets the manufacturing process unit exemption.

Please submit the required documentation within twenty (20) calendar days to:

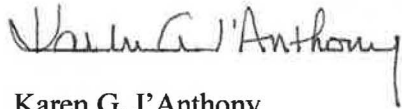

Melissa A. Ferree  
Department of Natural Resources and Environmental Control  
Solid and Hazardous Waste Management Section  
89 Kings Highway  
Dover, DE 19901
